Sicily 2007

We welcome you to attend the 4th International EBHC Teachers & Developers Conference.

Join in, learn about and share advances in EBHC while having fun!

Building on the 3 previous highly successful meetings, the program aims to foster international exchange and friendship in the pursuit of improvements of EBHC.

You will discover an intense intellectual exchange in a relaxed and informal atmosphere.

Meet teachers and developers from around the world in a 3-day program that will include keynote talks to highlight some of the major developments in EBHC in recent years, abstracts, posters and small group sessions to foster an exchange.

You will be staying in the seaside resort of Taormina, one of most famous venues in the world, at Hotel Caparena, the place for relaxing in every season of the year in a lush scenario filled by the scent of a subtropical garden of palm and acacia trees, hibiscus, orange and red bougainville flowers.

So whether old hand or new, we look forward to seeing you in "Sicily 2007".
